

project brief

TYPE OF FACILITY:

Offshore Oil and
Gas Drilling Package

Pride Bulk System Mad Dog BP

■ Offshore

Victaulic provided a piping system that reduced down time involving maintenance of the highly abrasive systems that are also subjected to conditions encountered on the open sea. Victaulic reduced weight and space requirements which provided more room for rig and oil production, and oil storage. In addition, the Vic-Delta assemblies simplified construction.

SPECIFICATIONS:

SERVICES:	PIPE MATERIALS:	PIPE SIZE RANGE:
Bulk Cement, Barite and Drilling Mud	Carbon Steel	3" and 6" (88,9 mm and 168,3 mm)

MARKET:

Offshore Oil - Maritime

VICTAULIC SOLUTIONS:

Reduced down time, weight and space requirements

OWNER:

Pride International, Inc.

CONTRACTOR:

Malaysia Shipyard and Engineering

ENGINEER/CONSULTANT:

Pride International, Inc.

COMPLETED DATE:

2004
